Education

North Carolina A&T State University

Master of Science in Information Technology - 3.85/4.0

01/2023 - 05/2024

Greensboro, NC

VNR Vignana Jyothi Institute of Engineering and Technology

Bachelor of Technology in ECE - 9.25/10.0

08/2018 - 07/2022

Hyderabad, India

Technical Skills

Business Intelligence & Data Visualization: Power BI, DAX, Power Query, Report Builder, Tableau (Basic)

SQL & Databases: SQL Server, MySQL, MongoDB

Programming & Data Analysis: Python (Pandas, NumPy, Matplotlib), SQL, Machine Learning (Basic)

Cloud & DevOps: AWS (EC2, S3, DynamoDB)

Web Development: HTML, CSS, JavaScript, React.js, Node.js

Tools & Concepts: Git, REST APIs, Microservices Architecture

Experience

Hoosier Community Network

Software Engineer

08/2024 – 04/2025

Bloomington, Indiana

- Worked on the DWIG Talent Matcher using React, Node.js, Express.js, and MongoDB. Designed RESTful APIs, and integrating Redux for state management.
- Collaborated with cross-functional teams, including designers, project managers, to align project objectives .

North Carolina A&T State University

Graduate Research Assistant

05/2023 – 05/2024

Greensboro, NC

- Analyzed large-scale medical datasets using neural networks, focusing on privacy-preserving techniques like R-DP, and provided insights on privacy-accuracy trade-offs to develop secure, compliant solutions for medical data sharing in collaboration with faculty and peers.

Academic Work

Banking Database Management | *SQL Server, Flask, Django*

- Designed and implemented a relational banking database using SQL Server, managing customer details, accounts, transactions, loan records, and branch information.
- Wrote complex SQL queries, stored procedures, and views to perform operations like account balance computation, interest calculations, transaction summaries, and overdue loan identification.

Responsive Portfolio | *React, Framer Motion*

- Created a responsive portfolio website, incorporating Framer Motion animations to elevate visual aesthetics and provide an interactive, dynamic user experience across various platforms. [\[Link\]](#)

Publication

Preserving Medical Data with Rényi Differential Privacy | *2024 IEEE World AI IoT Congress (AIIoT)*

- Conducted in-depth analysis of Rényi Differential Privacy to advance the privacy and security of medical data. The research demonstrated significant improvements in the privacy-accuracy trade-off, offering novel, practical solutions for secure medical data sharing and compliance with privacy regulations.
